Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The Information Disclosure Statement under 37 C.F.R. 1.97 has been received and reviewed. However, the information disclosure is not deemed to be pertinent over the prior art of record.

Claim Rejections - 35 USC § 112

2. Claims 6 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Subjective terms possibly intended to be linked (subjective terminology linked 2 or more elements; intended comparison, e.g. the claim recites forming a thick oxide layer followed by forming a thin oxide layer. The use of the subjective term "higher than" (thick, thin, high, low, etc...) renders the claim(s) unclear in meaning and scope.

Allowable Subject Matter

3. Claims 1-5; 9-15 and 17-21 are allowed.
4. Claims 6 and 16 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: The most relevant prior art of reference is that which was submitted by the

applicants. However, they do not teach nor fairly suggest singularly or in any combination thereof a process for forming an article, comprising the steps of providing a substrate, and forming on the substrate a film of $(\text{BiEu})_3(\text{Fe}_{5-y}(\text{GaAl}_{1-x})_y)\text{O}_{12}$, where x is 0 to 1 and y is 0.8 to 1.2. wherein the substrate is a single crystal material consisting essentially of a solid solution of two or more garnet materials, the substrate having a lattice parameter within 0.004 Angstrom of the lattice parameter of the $(\text{BiEu})_3(\text{Fe}_{5-y}(\text{GaAl}_{1-x})_y)\text{O}_{12}$.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTOL 892.
